The following is an **Examiner's Statement of Reasons for Allowance**:

Claims 24-35 are directed to an isolated nucleic acid molecule comprising a nucleotide sequence (a transcript or cDNA sequence) encoding a serine/threonine kinase of specific amino acid sequence (SRPK2), vectors and host cells comprising said molecules and methods of expressing said molecules. Claimed nucleotide sequences are free of prior art. Further, the prior art does not teach or suggest preparing such specifically claimed nucleotide sequences. Hence said nucleotide sequences are also novel and non-obvious.

Since claimed nucleotide sequences are both novel and non-obvious, molecules comprising said sequences, vectors and host cells comprising said molecules and methods of expressing said molecules are also novel and non-obvious.

Claims 24-35 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
